JRU TOUCH UP PAINT KIT

Instruction Manual

Touch-Up Paint for Cars

Over time, used cars often develop minor paint chips due to road debris, weather exposure, and small accidents. If the damage is smaller than a pencil eraser, a DIY touch-up paint solution can restore the surface without professional intervention.

Important Note:

The final shade may vary depending on the vehicle's original paint color once applied.

User-Friendly Bottle Design

Pen Tip Applicator – Ideal for precise, fine scratches and small chip marks.

Brush Applicator – Designed for slightly larger, more visible scratches and chip marks.

Directions

Touch-Up Paint Application Guide

1. Use the supplied cleaning wipe to carefully clean the affected area.
2. Allow the surface to dry completely before applying the touch-up paint.
3. Shake the bottle well before use.
4. Apply the paint as needed. A second application may be required for optimal coverage and color matching.

Caution

- Keep out of reach of children.
- Keep away from eyes and mouth.
- Eyes: Flush with water for 10 minutes, remove contact lenses, seek medical attention.
- Inhalation/ingestion: Move to fresh air, keep airway open, do not induce vomiting, get medical help/poison center.
- Skin: Rinse with water for 10 minutes, remove contaminated clothing, wash before reuse.
- If unconscious: Place in recovery position, loosen tight clothing, seek immediate medical care.

Storage

- Store in original, sealed container in a cool, dry, ventilated area away from sunlight, food, and incompatible materials.
- Keep locked, upright, and labeled.
- Eliminate ignition sources; avoid environmental contamination.

Warning

- Flammable liquid and vapor.
- Causes skin irritation.
- Harmful if inhaled.
- May cause drowsiness or dizziness.

Disposal

- Dispose of product and container safely.
- Residues may remain in empty containers risk of flammable vapor.
- Do not cut, weld, or grind used containers unless thoroughly cleaned.
- Prevent spills from reaching soil, drains, or waterways.
